

■ NE系列 Series

**特點 Features:**

NE系列鋁合金蝸輪減速機，是本廠原有E系列的基礎上開發而成的新一代產品，機體用優質的鋁合金壓鑄成形，體積小、散熱快、表面經皮膜處理不生鏽，美觀耐用。蝸桿使用鉻鉬合金鋼(SCM415)，經滲碳熱處理及研磨，傳動平穩，噪音小、輸出扭矩大，可適應全方位安裝。

The NE series aluminum alloy worm reducers are a new generation of products launched on the basis of the E Series products available in this plant. The compact aluminum alloy extruded body features good dissipation. The surface undergoing electrotype is aesthetic and stainless. The worm screw is made of aluminum molybdenum alloy (SCM415). After acieration and polishing, the worm screw delivers smooth transmission in minimum noise and maximum torque. Making it apt for all-purpose installations.

機種型號表示 DESCRIPTION OF TYPE & MODEL

LM - NE - 50 - 10 - L - I

公司代號 Company Name	機型 Type	型號 Model	速比 Ratio	軸向 Shaft Dirction	馬力 Horse Power
	NE	30	1/5		40W
	NEO	40	1/10		60W
	NEM	50	1/15		90W
	NEOM	60	1/20		1/4HP
	NEV	70	1/30		1/2HP
	NEOV		1/40		1HP
	NEOVM		1/50		2HP
	NEH		1/60		
	NEHM		1/25特殊		
	NEOH		1/45特殊		
	NEOHM		1/80特殊		
			1/100特殊
